Millennium Challenge Corporation (MCC) is a United States government-owned corporation created in 2004, whose mission is to provide assistance that will support economic growth and poverty reduction in carefully selected developing countries that demonstrate a commitment to just and democratic governance, economic freedom, and investments in their citizenry. To receive assistance, eligible countries are required to enter into a public agreement (Compact) with the MCC that includes a multi-year plan for achieving shared development objectives and the responsibilities of each country in achieving those objectives, regular benchmarks to measure progress, multi-year financial plan, and a plan to ensure accountability for the use of MCA assistance.

SCOPE OF POSITION

A personal services contract is different from non-personal services Government contract, which establishes an independent contract relationship. Under a non-personal services contract, the contractor or employees of the contractor are subject to the technical direction but not the

supervision of the MCC. As defined by the Federal Acquisition Regulation ([FAR](#) 37.104), a personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor personnel. Thus, the PSC is subject to the relatively continuous technical direction, supervision, and control of the MCC. PSCs may be assigned inherently governmental duties (see [FAR 7.502](#)). By law and by the contract's terms, the PSC is subject to most of the laws, rules, and regulations applicable to the direct hire employee such as MCC regulations, conflict of interest, under some circumstances MCC authorized employment security clearances, and financial disclosure. However, under the MCC personal services contract authority, PSCs are not employees for purposes of laws administered by the Office of Personnel Management (OPM). The following elements apply to this contract:

- (1) Performance on site.
- (2) Principal tools and equipment furnished by the Government.
- (3) Services are applied directly to the integral effort of agencies or an organizational subpart in furtherance of assigned function or mission.
- (4) Comparable services, meeting comparable needs, are performed in the same or similar agencies using civil service personnel.
- (5) The need for the type of service provided can reasonably be expected to last beyond 1 year.
- (6) The inherent nature of the service, or the manner in which it is provided, reasonably requires directly or indirectly, Government direction or supervision of contractor employees in order to—
 - (i) Adequately protect the Government's interest;
 - (ii) Retain control of the function involved; or
 - (iii) Retain full personal responsibility for the function supported in a duly authorized Federal officer or employee.

PLEASE NOTE: This contract shall be awarded solely to an individual(s), not to a firm. The individual must have an active DUNS # and a fully approved and active record in the [System for Award Management](#) (SAM).
